

To Whom It May Concern:

This is to state that I have known **Amandeep Kaur** for the past 2 months, working on the Finlatics Product Management Experience Program. FincruX is recognised as a 'Start - Up' by Department of Industry & Internal Trade (DPIIT), Ministry of Commerce & Industry, Government of India. It is one of start - ups selected for the prestigious incubation program at Atal Incubation Centre - NMIMS, supported by the Atal Innovation Mission, under the aegis of NITI Aayog, Government of India.

I was supervising **Amandeep Kaur** for the Finlatics Product Management Experience Program. During their time with us, **Amandeep Kaur** has successfully completed several product management projects, demonstrating proficiency in transforming user problems and business goals into implementable, evidence-driven product decisions. **Amandeep Kaur**'s adeptness at navigating ambiguous problem spaces, synthesising qualitative and quantitative insights, and prioritising with structured frameworks has been instrumental in driving informed decision-making processes in product development. Introduction to product management, encompassing customer discovery and jobs-to-be-done research, strategy formulation and north-star metrics, prioritisation frameworks such as RICE and Kano, product requirement documentation, design and accessibility critique, experimentation and A/B testing, launch and go-to-market planning, and growth and retention analysis, forms the cornerstone of their expertise. Their comprehensive understanding and application of these foundational concepts enable them to develop user-centric solutions and deliver actionable insights through structured product-management methodologies.
